About Berry Global

Berry is committed to its mission of ‘Always Advancing to Protect What’s Important,’ and proudly partners with its customers to provide them with value-added customized protection solutions. The Company’s products include engineered materials, nonwoven specialty materials, and consumer packaging. Berry’s world headquarters is located in Evansville, Indiana. With net sales of $6.5 billion in fiscal 2016, the Company is listed on the New York Stock Exchange under the ticker symbol BERY.

Job description

The sustainability intern is responsible for researching issues that will drive the future direction of Berry's sustainability program as well as supporting day-to-day activities across a broad range of subjects. Our goal is to foster an environment of learning and application. Our commitment is to provide you with a real-life, meaningful experience where you will manage projects from start to finish, meet Executives during our Lunch and Learn series, network with cross-functional teams, and give a final presentation to showcase your excellent work. We strive to challenge you and reward you for good work.

Core Responsibilities:

- Research and compare the different methodologies for setting a "science-based" greenhouse gas reduction target
- Compare results from the different available water risk tools to determine which Berry sites have the greatest risk for water scarcity
- Compile, audit, and analyze utility/waste data in support of our corporate reduction goals
- Calculate greenhouse gas emissions
- Assist with both public and customer reporting requirements
- Compare environmental impacts of different products
- Support recycling and waste reduction programs at Berry facilities
- Support Berry's efforts to implement renewable energy at our sites

Basic Qualifications:

- Pursuing a bachelor’s or master’s degree in a technical or environmental field such as Engineering, Environmental Science, Public Affairs, or equivalent
- Passion for sustainability and environmental issues
- Must have good interpersonal skills with the ability to deal positively with others in a team environment.
- Must be self-motivated with excellent organizational, communication, and leadership skills.

The intern will report to Robert Flores. Compensation will be in the form of a stipend through the Indiana Sustainability Development Program. The intern will work full time for 10 weeks beginning in May and ending in August. Exact beginning and end dates are negotiable. Interns will be required to attend a bootcamp from May 14-18.

Feedback and evaluation
The intern will be given regular feedback from Berry Global staff on progress and performance. Success in the internship will be determined by the completion of specified projects in a professional and timely manner. The intern should learn how the organization operates, how to balance competing priorities, and how to develop and maintain professional relationships.
