SEEKING OUTSTANDING ENVIRONMENTAL ENGINEERING AND SCIENCE STUDENTS FOR SUSTAINABILITY SUMMER INTERNS

MUNDELL & ASSOCIATES, INC. (MUNDELL), a small, dynamic, Indianapolis-based earth and environmental consulting firm is seeking outstanding engineering, environmental science and geology students for a sustainability summer intern position. These students should be making progress toward obtaining a B.S. or M.S. degree in a scientific or engineering discipline related to earth or environmental sciences from an accredited university. High-performing students in civil, geotechnical and environmental engineering, mechanical engineering, engineering geology and geophysics, and environmental science are ideal candidates for this position.

Job Description – Environmental Sustainability Intern

The sustainability intern with MUNDELL will be responsible for supporting MUNDELL’s efforts to work with non-profit organizations to address sustainability issues globally. As part of its involvement in the Economy of Communion (www.edc-online.org) and EcoOne (www.Econone.org), MUNDELL is actively engaged with non-profit religious organizations worldwide within the Catholic Church and also with other world religions to adopt sustainability principals in their activities.

Interns can be expected to make strong connections with others promoting sustainability practices in Indiana, the United States and beyond. Current projects involve support of a global sustainability tracking program using a web-based platform, and hand-on support for churches and religious groups within the Archdiocese of Indianapolis and its Creation Care Team. The ideal candidate will be proficient in the use of social media and web-based resources that are able to communicate across countries and continents. Language proficiency in Spanish, Portuguese, Italian, German or French is a plus.

The intern will report to MUNDELL President John Mundell. Compensation will be in the form of a stipend through the Indiana Sustainability Development Program. The intern will work full time for 10 weeks beginning in June and ending in August. Exact beginning and ending dates are negotiable. Housing is available in an intern house near to the MUNDELL office. 40-hr OSHA training will be provided if not already certified; excellent proficiency with computer applications (word processing, spreadsheets, graphics (CAD-related), GIS, and good oral and written communication is a plus.

WHAT WE BELIEVE IN?

MUNDELL personnel believe that the proper scientific or engineering analysis of any problem communicated in easily understandable terms will provide its clients with the guidance and direction they need to accomplish their goals. We believe that our pleasant demeanor, our comfortable dress, our high level of enjoyment in what we do and how we do it, and our drive for providing a high quality product creates an atmosphere in our work environment that is attractive to those seeking employment.
